<p>The preceding list includes all known killer whales (<i>Orcinus orca</i>) unsuccessful births sorted by location that occurred during captivity throughout the world. It includes stillborn calves, miscarriages or otherwise unsuccessful pregnancies for which data exists. Live births are not included.</p> <p>Sex: U= unknown</p> <p>The Orca Project Database has been compiled from multiple sources including National Marine Fisheries Service (NMFS) Marine Mammal Inventory Reports (MMIRs), marine mammal publications, websites, newspaper and news archives, government oversight agencies and marine mammal park documents. Every effort has been made to ensure the accuracy of the information in all reports and is believed to be correct as of the last update.</p>					
<p>The Orca Project has compiled an extensive database of Captive Orca information. We would like to make this data available to Marine Mammal Researchers, Scientists and Students who wish to further their studies. Data can be provided in Microsoft Excel format, customized to your specific application, sorted and filtered to meet your needs.
